The Online OCR.Space OCR service converts scans or (smartphone) images of text documents into editable files using optical character recognition (OCR). OCR software can also convert pdf text. Our online OCR service is free to use, no registration needed. Just upload your image files. The OCR software takes JPG, PNG, GIF or PDF documents as input. Pdf OCR supports multi-page documents and multi-column text. The only restriction of the free online OCR that images / pdf should not be larger than 5MB. If you need to automate your OCR and process many documents, don't scape this page. It's made for humans, not computers. Instead, use the free API provided by OCR. Your data is secure: this online OCR service and the OCR API store data as described in our strict privacy policy. Supported OCR languages: For the best OCR results, select the correct OCR language for your document. Please do not feed hand written documents to this converter. This online OCR service, like any OCR software available, can only process printed documents. For best results with images that contain only number (OCR number), try Chinese or Korean as OCR language. If you want to convert larger PDF documents without the page and size limit, you can sign up for our PDF Pro plan. In addition to the pro version of the API, this plan includes a custom OCR form like this on this page, but without the page and size limits. So you can use the power of our OCR PDF solution even without using the OCR API directly, at no extra cost. If you have any questions, please contact us. "I was sent with a task to digitally document some old books and make them editable, what should I do to convert the scans of these books to editable documents?" "This is the message we have received. Our readers recently. Well, for those who need to convert PDF and scanned images for texts, all you need is from an OCR online service, which can help recognize the text in digital photos of as a scanned PDF or a captured digital image. To present you with an elaborate review and hopefully offer some advice for choosing a free online OCR service, we tested the top 20 results on Google personally with the same files, including PDFs and images in different formats. In this article, we will list the top 6 online OCR services of our test results. OnlineCr OnlineCr.Net is a professional Professional OCR service with a clean and simple design. The look out of this site may seem like a small school since it was established in 2009, but this also keeps the OCR operation very simple for users. Onlineocr allows you to recognize scanned PDF documents, photographs and digital cameras captured images and convert them into editable files such as word, txt and excel. There are 46 different languages that supports recognition, including English, Spanish, Japanese, Chinese, Korean, etc. What we love most about this platform is you don't need to register an account to use this online OCR service. However, users will not have some records. For example, you can only convert 15 files per hour and no more than 15 pages per file. If you need more quota, just sign up to recognize and convert more pages and files along with other features. Tips "You can also convert a few small PDFs in a file with a PDF fuse. This way, you'll have more file quota per hour." Getting the OCR work done on Onlinecreates in three steps. Step 1. Tap the "Select file" button to upload a PDF file or photo in JPG, BMP, GIF, and TIFF format. You can also upload several files at a time. Just realize that the maximum size of the file you can add is 15 MB. Step two. Select a language from the file you upload and choose a word, excel, and TXT health format. Step 3. Click "Convert" to start recognizing and converting your files. After the process is completed, the texts of your original file that the recognized OnlineCr will be presented in the text box below, below with a link to the discharge of the health file. After several tests, we found that OCR performance of this service is pretty good. There is almost no error in the texts during our PDF tests and digitized images. And was able to keep all layouts, formatting, tables, columns and graphs from the original file to the converted document. Editor evaluation: 4.8/5 Supported input format: PDF, JPG, BMP, TIFF, and GIF. Supported health format: Word, Excel, and TXT. Languages of Recognition: 46. Unlike Online, Convertio is a free OCR service online with a modern and beautiful design, which is more appealing to younger people. Free and unregistered users can only recognize ten pages. If you need to recognize more pages, just sign up to get a better service. For the OCR online at Convertio, just follow these three steps. Step one. Click "Choose Files" to choose and upload files from your local device, Google Drive, Dropbox, web pages. Hello. In addition, you can add files by dragging them into the page. Step two. Choose one or two languages used in your loaded file. Then define a health format as... Doc, doc, xls, pptx, txt and much more, as you wish. You can choose to recognize all pages or just certain pages by introducing a page range into the "Number of Page" box. Step three. When the recognition and the conversion are over, a download link from the converted document will appear at the top. Just keep it wherever you want. Convertio has offered the largest number of options in OCR online service for Internet users. The only reason we put Convertio behind Online Word documents in Convergence are slightly lower than

Online OCR © more perfect. Aside from that, Convertio rivals most of the competitors. Evaluation of the Input format supported: Word, Excel, PPT, PDF, TXT, RTF, CSV, EPUB, FB2, and DjVu. Reconnaissance Leagues: 75, 75. Free OCR service online we strongly recommend the NewOCR, which can analyze the text in the image or PDF that loads, and then converts it into a text document that can easily edit on your computer. Each free user can have unlimited uploads without registration. All files that load and recognize will be deleted from the server, so there is no need to worry about the security of the files. First, click "Choose File" to add an image or PDF from your device, then click "Pronitize". Then choose one or several waters of recognition in the bonus box, then rotate the image if necessary. If your file loaded containing text with several columns, check the "Page Layout Analysis" tab to split the text into columns. Finally, press the "OCR" button. Seconds later, the recognized text will appear in the text box below. And you can download the text in TXT, Word or PDF format. Editor evaluation: 4.6 / 5 Supported input format: JPEG, PNG, GIF, BMP, TIFF, PDF, and DjVu. Supported Saída Format: TXT, Word, and PDF. Recognition Languages: 122. Abby FineReader Online is an OCR Online to recognize and convert PDFs and scanning in Word and other editable formats. Free users can get up to 5 mothers criterion pages. FineReader supports import and exports files to Google Drive, Dropbox, and OneDrive. The converted documents will be stored in A'LOUD for 14 days, allowing you to unload and share during the period. Editor evaluation: 4.6 / 5 Supported input format: PDF, JPG, PNG, TIFF, and BMP. Supported Saída Format: Word, Excel, RTF, TXT, PPT, ODT, PDF, FB2, and EPUB. Recognition Languages: More than 190. I2OCR is a free online OCR service that extracts text from images and scanned files so that it can be edited, formatted, indexed, surveyed, or even translated. THE Supports Multiple Uploads and Document Analysis with several columns. With more than 100 supported, I2OCR recognition languages can recognize most of the languages and prevailing sources in the world. To start, it is necessary to first select one one to recognize, then upload your file to the server, and click the "Extract Text" button. You will get a recognition result in seconds, and you can choose to download, translate or edit with Google Docs. Editor Rating: 4.5/5 Supported input format: JPG, PNG, BMP, TIF, PBM, PGM, and PPM. Supported output format: Word, TXT, PDF, and HTML. Recognition Languages: Over 100. OCR.Space does not offer as much integration of formats as other online OCR platforms, but what makes it stand out are the multiple options for text recognition. For example, you can paste an Internet URL to get a file on the OCR. You can check the option "Detecte orientation" to self-route the images if necessary. It is also possible to create a searchable PDF with a visible or invisible text layer. The recognized texts will be presented in "Text" and "Json" format in the right column. The result can also be downloaded. But unlike most previous services, we recommend OCR.Space only supports TXT as the output format for an editable text file. Editor Rating:4.3/5 Supported input format: PDF, JPG, PNG, and WEBP. Output format supported: TXT and PDF. Supported languages: 25. By testing the top 20 search results on Google, we found that a free online OCR that works well is not so easy to find. These 6 services we mentioned are not perfect but can cover most of your OCR requirements. Both OnlineOCR and Convertio work very well among competitors. They should be your first choice when you need a free online OCR, especially for online scanned OCR. online.
