ALL VERSIONS With Apple Trade In, you can get credit toward a new iPhone when you trade in an eligible smartphone. It's good for you and the planet. Shop iPhone Stunning photos. The fastest chips. Incredible battery life. And a design that lasts, so iPhone holds its value longer. A simple app can transfer your photos, contacts, messages and more — many of your favourite Android apps will even download automatically. It's all easier than you think. The world's most popular camera. Camera Portrait mode lets you take beautiful shots with dramatic depth of field, then get creative by blurring the background as much as you like. iPhone 12 and iPhone 12 Pro also have Night mode on the Wide, Ultra Wide and TrueDepth cameras, and they're better than ever at capturing incredible low-light shots. They both record 4K HDR video with Dolby Vision too. The fastest, most advanced smartphone chips ever. Apple-designed chips Apple-designed chips are years ahead of the competition and deliver performance you can't get with any other smartphone. We also design the operating system. So everything works together beautifully — not just now, but for years to come, with new features and security updates that help keep your iPhone in top form. FaceTime and Messages give you new ways to stay in touch. Connect Messages lets you give a thumbs-up with a quick Tapback, create Memojis, play a game and more. And every iMessage is encrypted end-to-end to protect your privacy. FaceTime lets you video chat 31 friends at once — you can even use your Memojis and capture Live Photos. Apps for everything. Curated for you. App Store Our editors curate millions of free and paid apps to help you find your next favourite. When you download an app, it should work as promised. We carefully review each app and require developers to follow strict guidelines on privacy, design and business models. We also bring you stories about developers and their apps, with tips to get the most out of them. Privacy iPhone is designed to protect your privacy. Every iPhone comes with secure facial or fingerprint authentication. Maps keeps your location private. Safari helps stop advertisers that follow you from site to site. And you decide whether apps can access your photos, contacts and microphone. The list goes on. Learn more Seamless If you have a friend with an iPhone, you've probably noticed how much easier everything feels. Want to pair new AirPods with your iPhone? It's a simple one-tap setup. Want to share photos, videos or contacts with friends nearby? AirDrop lists their names onscreen, so you can easily choose with a tap. More recovered and renewable materials. Environment We are always looking for new ways to conserve materials. Whether it's responsibly sourcing wood fibre for our packaging, using 100% recycled tin in the solder of the main logic board, or inventing a robot to recover materials traditional recyclers can't. And since reuse is the best form of recycling, most of the devices returned through Apple Trade In are passed on to new owners. Learn more iPhone is designed to last. Longevity Water resistance, aluminium or stainless steel, and super-strong glass make iPhone incredibly durable. And with automatic iOS updates, you get new features and security enhancements that help your iPhone run beautifully and hold its value longer than other smartphones. Your photos. Your contacts. You're good.
