As naturopathic medical students, we often use this 792-page bible to prepare for our first license exam and, without doubt, the whole cohort will be the acquisition of this bad boy. Some new diagrams/images include:1) DNA mutations2) protein synthesis3) autosomal trisomies4) ethanol metabolism5) Immunology has been restored and read more logically6) Endo vs exotoxins7) HIV diagnosis algorithm – GREAT diagram.8)added about cancer immunology (v. (v.– Is found in the general pathology section9) Emathology and oncology – order reordered larger diagrams on ematopoiesis, pro- and anticoagulation10) MSK – beautiful diagrams on radiopathy11) Very nice additions to the neuro section, for example to a lesser extent than the spinal cord12) Some practical photos of real examples of embryo pathologies13) The first aid for phase 1 of the USMLE provided very surprising results in the past. Many students consider preparing for step 1 only using this source. So, in this article today, we are sharing the first aid for the pdf file formatStep 1 2019 with you.
