When I go to the item box, there is no option to equip them anywhere. Has the button been moved elsewhere in the update? How can I get cute and nice clothes instead of the Smithy >> 21 There is a bug Whit Thelarge Daora Crown I fall now for more days Watch now more than 50 percent and kill over 50 years where I was thinking it's © big but nothing I buggy from the crown ?????? I had an interesting idea for a game intersection. I was looking online in an old game Capcom called "Red Earth". In it, there is a legendary dragon called Hueler. me me This character would translate well into a monster monster. They also could have an event with costumes of the playable characters, and new sets of armor to defeat Hauzer. Six I did. Greatsword feels like shit compared to previous games> 6 I think too. Especially when I fought Teostra, after running rage cut then I want to go power sheets, it is always to feel delay. Sometimes my combination of rage failed too, although I hold my x button. I do not know if my controller is losing or playing errors, but I feel it after the update Q. 4 Long sword is not a good beginner weapon. requires good speed and need. Any weapon can be a starting weapon, but it is definitely not the best. The sword and the shell is still the best starting weapon, and even this weapon has many nuances when you begin to dominate it. I need help. I completed all the missions of the village and any missions that Fogar asks, the last thing was to recruit 15 friends, but he trying to get the set of medium armor I can not find it to prepare the armor, I I have about 7 kumara tickets too. I can not find any guide that is. Any help would be great I have a problem with controls with the gun GS I do not know if it's a bug or other problem but while we changed the controls for Type 2, we can not do a GS plunging thrust with Wirebug's jump every time he jumps up and trying to "r" Button, nothing happens ??? I can make a jump load but I can not make plunging try and answer me you have the same bug? 13 You do not get more parts, it just makes the hunt easier so you can cultivate more quickly there is a benefit for the hunting online with others? Do you get more rewards or parts of monster? How do I unlock the Cat-ACLYSM defined for the palic? I have all the materials you need, but I can not see this set on Crafting NPC, the same the equivalent palate set? 7 Is there a self-translated message that says not to capture? Why won't there be a key unlock in the list of players next to the name? It's normal that for monsters, crime scenes, crime scenes. If I disable the subtitles, do they appear anyway? Yo, if the host clearly states that it does not capture Tigrex at the beginning of the dog, and its two dogs © Brain cells catch up anyway, swim in cinderblock shoes I'm the only one who noticed how great are the delays between the big keywords? Attacking with the big sword leaves a significantly long window of vulnerability before being able to block/defend. Someone else. © m has frame problems only when the Animal Crossing Edition Switch is attached? When I play it in manual mode, the frame looks much more consistent. When played in coupled mode, the buoyancy of the frame and the falls are significantly more noticeable. I'm using the Acer monitor SB220Q 21.5 in 60Hz. Is there something intrinsically wrong with my Switch? The game is half-dead without the update of the final game. 2021/4/1 15:34 © mica and I took a picture of it. I am sure, because it replaces all the images on the home life list © mica. Still, I only have the Next © mio silver ecologist, but not copper and gold ecologist. When Almother dies, many people notice that her rear flippers stay up, protecting her thunder bag (which was strange because she is dead). But it turns out that this only happens if we break it. If not broken, its back fins relax after death. I'm not sure if this is © a detail that they wanted or an insect, so I thought I'd mention it here when I use the Araknblade with the Valtrax set, my elementary amplified discharge and the elemental super amplified discharge do no further harm when I contract the Dragonblight, despite my other load mines doing so. Hello, there have been lobby issues with my friends and myself where we continue to be expelled from each other. Even though we all have Stable internet, and a pass to help each other. In the flooded forest, occasionally the game was dressed to reach the top of the area 7, the place where the recording can be recorded. % For me, during an Expedition OLA'tour, then this is © a visual and not super large, but on the bone helmet there is like a black mesh where the dogmen face. I'm going to show you a picture. It seems so strange that I've made the new event journey twice for okami layered armor. And as in every damn event, it does not appear to me in the game to buy or make crafts. Someone © can tell me if I'm just stupendous or if this © a bug. 166 Then the idea of the battle music © a monster sees you and start the fight. Khezu does not have music of battle Â© more a River egg than an insect, because Khezu Â© blind. The theme of the battle music did not stop after the end of the dog and still play during the village Please help t ao annoying >166 khezu does not have the theme because the developer wanted the dog to be more. as I can tell. Scary, something like that I use configurations of the type 2 player's drive for melee guns, but I can't make the immersion boost to the Greatsword sword after a wirebug. With type 1 configurations © 2R in the air, but I can't find it with type 2 configurations. Khezu has no music, ever. The music will start when riding a monster, including Khezu, but will after disassembling. Also, © not a thing, but I feel that it roars infinitely more than other monsters? It could be because no music is playing. 154 Thou has't bought all the merchant's scrolls? En Buddy Plaza? Note: You open new scrolls by shooting the same monster several times. When you check the red gear (armor/weapon) ""I"pops to indicate new equipment. It keeps showing up again even after hovering and leaving the store. There are © there are some in the layer armor section. So after competing the urgent demand on the 7 hr to kill Narwa, does not say I went up© to hr 8, he apparently stuck in hr 7 and can't progress I did not get the narwa trinkets and ibushi to get all the Rampage. I received the information for finding all the messages, but not the trinkets. I don't have any goss harag parts in my last (5) Despite looting them on screen. Just bringing this to light in case other people have the same problem not finding the Iron armor set, even when I have all the materials needed. I keep getting error message of communication while joining in stir. My Wi-Fi connection © good and I have no problem with on line connections with other games. Can this problem be rectified? So am I. © I have never had any problems connecting with others before upgrading 3.0. After making several Daora Kushala Caesars for Daora Horn+ I noticed that although the material information in the cayman notes says that only can be obtained by breaking the horn or sculpting the body, that I would get some target rewards around the same rate the body hides did you know that there is a chance that Rajang is in search of high ratings? Hello. © In addition, he has an incredible greatsword and armor which is © I'm gonna take a look a t what you need for the armor. armor.
