Cue card topics with follow up questions

Cue card questions. Cue card follow up questions.

Well, there are some activities that I do regularly and some are no productive like others. Here I would like to talk to you about a business that is part of my daily routine that is surfing apps and websites on social media. Actually, today social media are becoming an inevitable part of our life. I have an account on all the main social media platforms such as Instagram, Facebook and Snapchat. So every day I check my accounts very often. For the more, I use social media in the evening after finishing my job. I use them even whenever I have a short break or leisure. Sometimes I open my phone even after receiving a notification of any update. I would say that I spend about 1-2 hours on social media a day. There are a couple of reasons behind the use of these social media applications. The main reason is to connect with my loved ones as I can easily communicate with them on social media platforms. Another reason is to get a break from my frantic program because looking at something exciting on the internet makes me feel relaxed. Although these reasons are valid, but sometimes it seems to me that the use of social media is a completely unproductive activity. Most of the time, I open a social media app just to control new messages, but once opened, I couldn't resist from controlling more and more posts on my wall. So, I think it's a kind of addiction that should be abandoned. Moreover, at this time I can do something productive for my health. That's why I think if you used this time elsewhere, it would be more advantageous for me. To be honest, now I'm trying to stop using these social media apps and I'm really happy that I'm getting success. Vocabulary: productive (adjective): Having inevitable positive results (adjective): Of course that will happen and inevitable ethical (adjective): full of activity, or very busy and fast entirely (adverb): whole or complete non-productive (adjective): not having POSITIVE RESULTS Resist (verb): Prevent you to do something you want to do à à «in IELTS Speaking of Part 3, the examiner will make a larger range of questions from the data subject to part 2. Over time, we started collecting the advantages of previous innovations and technological discoveries, progressing towards a More evolved and digitized world. As a result, we are surrounded by electronic technology practically wherever we go, if at home or at work. At home, I have a personal co Mcuter with the latest configuration. When I'm at home, it's the most significant and precious thing for me. It helps me a variety of ways. When I get home after work, I get your PC and listen to music. Sometimes my girlfriend and look at intriguing movies on the web. It has become an indispensable component of my daily routine. How do you use it? I also use electronic equipment for a variety of different functions, as well as complex apps designed for a variety of uses. During my holidays, I mainly use the computer to play various video games, while my girlfriend uses it to edit the images. It is quite advantageous for me and my family. Learn how to run the programs, on the other hand, was not so simple for me as it is now. Now I'm able to do fantastic things with my PC. I can use the software Images to edit photos, use the text processing software like MS Word to write anything, use PowerPoint to prepare presentations for my office, USA Predarivise Predarivise Analytics analyze large amounts of data and carry out a series of other works. I enrolled in a training school and learned the skills needed. With editing programs, now I can edit photos or create graphics and give them the forms I want. Read also: Describe an interesting conversation you had: Topic of the sheet explained for the IELTS conversation exam How often do you use it? All my knowledge came from the training school when I completed a six-month course. I used to make stupid mistakes during the startup of apps, but now I am a professional, and I don't even need to check the keyboard to see if I'm pressing the appropriate key. In 2012 I had to buy a new computer for my girlfriend, who is a naturalistic photographer taking pictures of animals and then editing them before submitting them to various organizations. Despite the fact that he has a small laptop, he finds it difficult to work on it, so I had to take one for her. The computer has a higher configuration, which allows it to perform almost all the heavy, available and complex software. It works at an incredible pace. Also, since I took the computer, I learned to use it, which I didn't know before. In less than a year, I went from beginner to expert. Why is it important? Both me and my girlfriend benefit from the computer. We both rely on technological devices to meet our daily needs. My girlfriend spends most of the day editing her wildlife photos acquired from around the world on the car. Also, while I make crucial decisions, I create logical and attractive presentations to show to my workplace. As a result, the questions are really beneficial to me. When the office asks me to design some logos or banners for special events that will be realized, I do it from home, which helps me to progress in my work. Also, since today is the era of communication, I use the computer to access social networks sites in order to communicate with other family members or friends. When I surf the internet, I prefer to use a computer rather than a mobile phone. The huge screen is very fun. Describe a part of the equipment that is important in your home sample two What is it? Currently, each family is full of various forms of technological devices. They are used for a lot of things. I also have some equipment at home, and I would like to talk about my fridge. Thank you for asking such a challenging question. I have a well-designed refrigerator of a well-known brand. It's a medium-sized object I've used over the last five years. It is a fantastic technology device that works at all hours of day and night. In fact, this is the only electrical appliance in my house always on.consumes less energy than standard freezers. This characteristic makes me happy. In addition, the quality of the food remains fresh in the fridge, while I ate some. experiences with the quality of food. As a result, I consider myself lucky because I have high quality technological equipment at home. It was not difficult for me to learn how to use the equipment. Read also: Describe an Interesting Animal Dog: A Topic of the IELTS exam How do you use it? This was one of the simplest tasks I've ever completed. It's simple. To start working with the refrigerator, I just need the plugin. The temperature regulation was fundamental. You'll have to lower the temperature when you're about to produce something cold. On the other hand, I was relieved not to have to clean excess ice from the corners of the refrigerator. Most freezers have this function of producing ice, which you need to clean daily. As a result, using a full ice refrigerator is challenging, and users need to pay attention to ice difficulties. For better storage, the refrigerator has some drawers where I can store my fresh vegetables and other cereals. The goods are kept fresh for a long time. In the last five years, I've been using the refrigerator. How often do you use it? My wife bought it as a surprise for our wedding anniversary. I had suffered from the lack of a good refrigerator before getting one. What I had didn't work well. That actually didn't go well. Gathering food and other resources was a great challenge for me. So I asked him to get me a fridge. But he refused my demands and did nothing. One day he brought home the refrigerator unexpectedly, and I was caught by surprise. I knew it was our wedding anniversary, but I had no idea it would be so exciting for me. Since 2012, I use the refrigerator regularly and without accidents. It still works as if it was the first day. Why is it important? For a number of reasons, this is a very practical technology device for me. My boyfriend likes a variety of kitchens, but I can't get ready for him all the time. As a result, I store the raw materials in prepared form and friggo or oven only if necessary. It helped me save time and effort. Apart from this, the refrigerator is spacious and has enough storage space. As a result, when I go shopping, I collect the products I will need later and store them in the refrigerator. It saves me time and effort. I've been using this fridge since the day he came to my house. In the light of these concerns, it is a technological device really useful to me.
