How much is an acrylic sheet. Where can i buy acrylic sheet near me.

Skip to content Skip to navigation menu Thank you for signing up for emails Copyright © 2022 Wickes.co.uk Art Supplies Those dirty stains on your kitchen backsplash can be vexing. Say, you've just moved into a house, which already had a stained kitchen backsplash. There is little you can do in situations like these, especially when you desperately need a place to move into as soon as possible. So, does this mean you have to live with those stains forever? You can mask those kitchen backsplash stains with acrylic sheets. So, buy acrylic sheets online from popular brands, such as FISKARS, ZakTag, A-Mart, Kapadia, Kingsway and much more. What are Acrylic Sheets? The following information can be a bit heavy on the technical side. So, here we go: Acrylic is manufactured using one or more derivatives of acrylic acid. Going into technical details, Polymethyl Methacrylate acrylic (PMMA) is one of the most widely used forms of acrylic. This offers great strength, durability and versatility. Acrylic is also known as plexiglass. It is known for its glossiness, and for its resistance to scratch and impact. Do You Need Acrylic Sheets? To see if acrylic sheets are meant for you, then you must be familiar with the benefits of these sheets. Let's explore more: Lightweight This can be considered as one of its biggest advantages. They are known to be 50 percent lighter than glass. Thanks to this factor, they are easier to handle and manage. So, cover your kitchen backsplash with a colored or clear acrylic sheet easily. Toughness These plastic sheets are water-resistant and they don't lose color easily, making them pretty reliable. Moreover, unlike ordinary glass, they don't shatter that easily. Even if they do, the large blunt-edged pieces are not as dangerous as the sharp shards of glass. These aspects of acrylic sheets make them perfect for your bathroom. You can consider them for the shower doors and sliding doors. If you want to bring in that vintage feel to your bathroom, you can fix your bathroom windows with a colored plexiglass sheet. So, when sunlight falls on the window, it creates a different kind of effect on the bathroom floor. Buy colored acrylic sheets from brands, such as ZakTag, A-Mart and Paraspapermart. Transparency These sheets allow light to pass through them. So, you can use them for motorcycle shields, storefront windows and sneeze guards in cafeterias. In addition to the above mentioned uses, you can get super-creative and artsy with plexiglass sheets. You can use an acrylic sheet as a canvas for you to display your artistic skills. Splash paints, throw in some glitter and create your own kind of art. Hang this beautiful piece of art in your bedroom and let your guests admire your creation. If you are brilliant enough, and people are perceptive enough, you can showcase your skills in an exhibition too! Where to Buy the Best Acrylic Sheets From? Explore clear acrylic sheets, colored acrylic sheets and other variants of acrylic sheets online from popular shopping sites. Seeing the number of options available out there, you might get visionary ideas that you wouldn't have thought of before. We are also able to print on acrylic and provide sheets for commercial situations. Above all, we can deliver whatever you need fast. When you're ordering Perspex® acrylic material, all you need to do is let us know the size, colour, thickness and finish you need. If you need to, you can include any drill holes you would like to include in your acrylic, for things like power sockets or plumbing, and we will cut your sheet for you. We will then send your order via courier, carefully packed and wrapped, ready for you to install. For example, our acrylic plastic sheets make for an ideal replacement shed windows, splashback, shower door, light diffuser or secondary glazing. It's also the perfect material for use as a tougher alternative to similar glass products such as tabletop protectors, and dance studio mirrors when using mirrored acrylic sheets. We hold one of the largest stocks of acrylic plastic sheets in the UK to provide you with fast delivery and a vast range of colours to choose from. Employing the latest CNC cutting technology means our cuts are accurate and repeatable. Cut My Plastic has built a great reputation working with individual consumers requiring a small shed window or splashback up to global companies needing thousands of components manufactured quickly. Our website is easy to use and allows you to add drill holes, cutouts, rounded corners and polishing quickly but if you have more complicated requirements please get in touch today. When we cut our plastics we can do so to a tolerance of +/- 1mm. Once the acrylic plastic sheets have been cut we can also bevel the edges, polish them to a glass-like finish and round off corners. We also have a range of 100% recycled acrylic, and our 5mm acrylic comes with an optional scratch resistant surface, great for areas that will require more frequent cleaning. Simply place your order, advising us of all your bespoke requirements. We'll take care of the rest. When to cut your acrylic sheet for a DIY project? Check out five ways you can cut acrylic yourself. Applications of Acrylic Sheets Lightweight High Impact Mirrored Acrylic Our range of acrylic materials includes mirror effect acrylic sheets which are perfect for use in gyms, fitness centres and dance studios. It can also be used in the garden as a design feature, enhancing both the light and sense of space. We can supply and fabricate acrylic sheets which are lighter than glass, have better impact resistance and are safer to use around customers. Tabletops And Table Top Protectors Using a Perspex® cut to size acrylic sheet as a replacement for a glass tabletop is ideal where safety is a concern. Clear acrylic sheets, cut to size make the best tabletop protector. Now an heirloom piece of furniture with engraving or marquetry can have a new lease of life under the protection of a bespoke cut and polished clear plastic shield. Alongside our clear acrylic sheeting, we also have Glass Look Perspex® sheets which have the authentic green tint when looking at the edge of the sheet, keeping the look of real glass but preserving all the benefits of plastic. As a result, our Glass Look acrylic sheet makes for an excellent alternative to the glass whilst keeping the same aesthetic light transmission. Retail Display We are experienced suppliers of both cut acrylic sheets and extruded acrylic. Extruded acrylics are perfect for signs and displays for home and retail. This is because extruded Perspex® cut to size acrylics are unaffected by UV light, as well as being weatherproof. Commercial spaces can benefit from acrylic in numerous ways, from shelving, retail fixtures, wall coverings, branding, and totem signs for offices, hotels or museums. The versatility of acrylic, along with its excellent aesthetic qualities makes it an ideal material to work with. As a result of this, our cut acrylic sheets make for perfect illuminated signage and outdoor displays. They are also ideal for use in a home setting becoming great options for cabinets and shelves. On the other hand, as cast acrylic sheets have a low softening temperature they can be easily moulded making them great for fabrication and manipulation. A keen DIYer would also be able to use basic tools, or easily manipulate their sheet to create new designs from their Perspex® cut to size acrylic sheeting. Perfect for a huge variety of projects. Light Fittings and Discreet Privacy Glazing Our acrylic sheets can be used for light fittings, diffusers and privacy glazing. For this, we have Opal, Frosted and Translucent acrylic sheets. These are a form of extruded acrylic and are ideal for use in displays or signs. These diffusers are also great for controlling light, preventing wandering eyes of passers-by. Acrylic is commonly used for signage as it can be used effectively for outdoor use as well as indoor applications and is durable enough to withstand the elements. This includes point of sale displays and exhibition stands and overhead signs. Because of its optical clarity and shatterproof properties, acrylic sheet (branded as Plexiglas sheet or Perspex® sheet) can make a great option for windows, secondary glazing and skylights. Alternatively, check out our coloured acrylic sheet options. Shed and Playhouse Windows Cut acrylic sheet has many fun applications too. A playhouse fitted with Clear acrylic as an alternative to glass becomes a warm, bug-free environment for children to play in without the associated dangers of window glass. Putting plastic sheet glazing into a Wendy house means that it can also be used to store toys and play equipment over winter, instead of taking up space in a shed or garage preventing the cold and dampness from causing damage. Wipe Boards, Splashbacks, Signs and Displays Our opaque Opal acrylic sheet Cut My Plastic also stocks a range of opaque acrylic sheets in a range of colours, including black or white. These are perfect for use as wipe-boards, splashbacks, signs, displays and cabinets, tabletops and wet room walls coverings. Features of Acrylic Sheets Durable There are many benefits of using an acrylic sheet (Perspex®) and it makes a great replacement for glass in various applications. The primary reason why acrylic is used is for its durability and toughness - it has up to ten times the impact resistance of glass and is also shatterproof, making it a safer alternative. Malleable Acrylic sheet and its Plexiglas equivalent are also easy to fabricate and machine, and bond effectively with adhesives and solvents. It can be cut to any shape, size or thickness, making it a versatile and flexible material that's ideal for so many uses. Weather Resistant Acrylic has great weathering properties, so it can be used both in and outdoors without any worry about the quality of the material deteriorating or showing signs of damage. This material is also transparent and offers brilliant optical clarity, so it can be used as an alternative to glass for applications such as secondary glazing. However, it's half the weight of glass so it's not only safer but also easier to install. Check out this guide for more pros and cons of acrylic sheet How much is a sheet of Acrylic? Thickness (mm) Max Height (mm) Max Width (mm) Cost per m² 2 3050 2030 £29.51 3 3050 2030 £46.52 4 3050 2030 £60.59 5 3050 2030 £68.24 6 3050 2050 £87.22 8 3050 2030 £118.05 10 3050 2030 £147.30 12 3050 2030 £168.62 15 3000 2000 £206.14 20 3050 2030 £249.17 25 3050 2030 £311.44 30 3050 2030 £457.61 Installing Acrylic Sheet When placing your order, you can choose a variety of thicknesses from 2mm through to 30mm, depending on the plastic, application and rigidity you require. You can also request holes and cutouts to be pre-cut for you by our skilled machinists to make installation even easier. Perspex® cut to size acrylic sheets can be installed either by drilling it to the wall or by using an appropriate adhesive to glue it into place, making installation incredibly easy and quick, even for a DIY amateur. Acrylic sheets are lightweight unlike glass or other materials, so they can be put into place with ease. This is particularly useful when installing larger sheets, such as wall splashbacks. What does a sheet of acrylic weight? PMMA (acrylic sheet) has a mass of 1.2g/cm³ which is about half of the glass. Below is a guide showing the weight for an m². If you want to know the exact weight of your cut to size sheet it is displayed on the product page just about the green add to cart button and quantity. Thickness (mm) Max Height (mm) Max Width (mm) kg per m² 2 3050 2030 2.38 3 3050 2030 3.57 4 3050 2030 4.76 5 3050 2030 5.95 6 3050 2050 7.14 8 3050 2030 9.52 10 3050 2030 11.90 12 3050 2030 14.28 15 3000 2000 17.85 20 3050 2030 23.80 25 3050 2030 29.75 30 3050 2030 35.70 Need help removing scratches from your acrylic sheet?
